EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alfred K. Wiedmann, Jr. on 06/24/2004.

Claims 1-4, 6-9, 11-14, 16 and 18 have been amended in the following pages.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the recitations of the specific features of the helmet system and method, of claims 1 and 18, including especially the following:

The primary reason for the allowance of independent claim 1, is the inclusion of the protective head covering defining a protective head covering cavity, and the gas release element fluidically coupled to the at least one compressed breathable supply gas canister and responsive to the safety risk factor sensor so as to release breathable supply gas into the protective head covering cavity upon the sensed presence of a safety risk factor, claimed in combination with the helmet system's outer shell, face shield, cushioning element, and exfiltration element.

The primary reason for the allowance of independent claim 18, is the inclusion of providing the at least one flow of breathable air to inside the protective head covering, and increasing an internal head covering air pressure to above an ambient condition value, and exfiltrating gas from within the protective head covering through an exfiltration element.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
